I: 2
ii: 1

Observer's notes:

- Acclimated quickly, came out his shell right out the gate
- Curious, quick to investigate
- Very Playful
- While he did score more A's, I've brought his final result down one to compensate for the lower grades that he got on some of the tests. Only time will tell as he grows and his personality develops which grade he will ultimately grow into.

Final Score: B
